1	Syllabus / How the Class Works	2
2	Overview	2

1 Syllabus / How the Class Works

- HW is just you fixing / adjusting provided code.
- We will use MATLAB.
- Given 3-4 weeks to work on projects (just set aside a weekend lol).
- Will cover some statistics, math, wavelets, signal processing, and pattern recognition
- We will talk about different pieces of biometric tech, how to use them, security, and how to attack them.

2 Overview

-
